(Including live surgery)

Presented by Dr Chris Lucas BDS

Or

Friday 3rd December 2010

Venue: The Malt House Dental Centre, Deva Centre, Trinity Way, Manchester, M3 7BD

Time: 9am to 4.15pm

(Including live surgery)

Presented by Dr Peter Young PhD, BDS

Using the original Mectron Piezosurgery developed by Professor Tomaso Vercellotti – patented dual wave ultrasonic cutting technology unavailable on any other machine. The Mectron Piezosurgery unit is a well-researched and evaluated system for cutting bone accurately and efficiently without heat damage or risk to soft tissue. The Mectron Piezosurgery unit may be used in Implantology, Periodontology, Endodontics, Oral and Orthodontic surgery. The aim of this course is to familiarise delegates with the latest Piezosurgery 3 unit and to try out various techniques during the hands on session, including block and bone chip harvesting, implant site preparation, bone splitting and sinus lift techniques.

There will be a live surgery demonstration and delegates will have the opportunity to ask questions on a real time basis.

Course Fee £295.00 inclusive of course material, refreshments and VAT.

Cheques payable to "General Medical" please.

Course numbers strictly limited

Five hours verifiable CPD
